

Anthropology of Russia & Eastern Europe

This course explores the contradictory effects of socialism and its “fall” in the former Soviet Union. We'll delve into pop culture, queer, crip, and feminist movements, post-socialist shopping, minority media, music, and much more. Our inquiries will connect to broad intellectual questions in anthropology and related disciplines.

Fall 2021 | Wells Library 028

Wednesdays 11:30 - 2:00 PM

Instructor: Dr. Sarah Phillips
